ABOUT US

VNV Software's genesis dates back to 1997 when the concept of IT technology was quite in its nascent stage. The company was rightly able to conceptualize and realise the importance of IT services, thus using its healthy work force and eyeing cost predictability, grew over the years to become one of the value added service providers in the market.

We are today providing services to large and small scale industries. The approach mechanism used by us is innovative combining IT Innovation, New Generation technology and the clients IT assets.

Security Guarding ERP has been used by guarding companies since 1998 and presently we have a client base of more than **700+ Security Guarding and Facility management companies** using our products pan India.

National Presence – Our Customer support centers presently are at 4 metros and are in a process of expansion to 10 cities by the end year 2012.

Team – Skilled, Dedicated and Trained professionals with experience for over 8 years on VNV Software Products and ERP Software.

Products of VNV -

- ERP for Guarding /House Keeping/Facility Mgmt Companies
- ERP for Re-sellers/SME
- ERP for Carpet Manufactures/Exporters
- **Payroll Software Division** – www.payrollsoftwareindia.info, www.payrollsoftware4sme.com
- **Medi-Tech Division** – Medical Software's – Hearing Disorder , Balance Disorder etc
- **Web -Tech Division** – Web Designing & Search Engine Optimisation. – www.makemywebsite.in

What is VNVGUARD –ERP

Our security guarding software has evolved over the years with the taste of our clients, the evolving market, government norms, emerging technology and the ease to manage in a short period of time. VNVGUARD-ERP as the name simplifies is the complete solution for large private security guarding companies to optimize and organize for national/international operations.

Our ERP is developed using Microsoft Visual Foxpro with DBF database. Using our inhouse vnvscatter technology our product is able handle large quantity of data and unlimited number of users with ease. Speed and performance is only based on hardware limitation. it employs the Terminal service technology for WAN access and can be access from any where on popular browsers like IE, Chrome, Firefox ect. and also with minimum spending on hardware technology. Also this product requires minimum maintenance for day to day running. Hence a full time database administer is not at all required to manage our enterprise product. Check out testimonial section to find what our esteemed customers has to say about our product and services.

WHY - VNV GUARD

- SPECIFICALLY MADE FOR GUARDING INDUSTRY.
- SERVING GUARDING INDUSTRY SINCE 1998.
- 700+ Satisfied Customers all over India
- Ready to Use Software with minimum or no Customisation requirement.
- Experienced Support Staff with over 8 to 10 years of experience.
- All INDIA Support. Offices at Delhi, Mumbai, Banglore and Kolkata.
- VNVGUARD – ERP can save upto Rs 400 per guard per month by Process Optimisation
- WAN (Wide area Network) ready. Work from branches also.
- REPORT AS PER PSAR ACT AND ALL STATE WISE COMPLIANCE.

ADVANTAGES OF VNV GUARD 2012

Against Excel/Manual/Other Customised Software

- **Recruitment System** – Maintain Complete Guards Record and Access it any time.
- **Stock Manager** - Control the Inventory required size wise so that minimum inventory is maintained at godown, hence saving lot of cash to the company. Also auto advance logger for recovering uniform cost, hence no human error or missing entries. This is one of the major loss area in this industry. **Loss due to NON Recovery of Uniform issued to Guards.**
- **Advance Manager** – Manages the Advance, Loan, Fine, Uniform Cost recovery. Generates reports –List of advance given, List of Advance Recovered, Pending Advance to recover. Facility to deduct advance in Installments. **HENCE helps in reducing losses due to non recovery of cash advance given to guards.**
- **Salary Manager** – Generate salary for guards as per unit rates in which he has worked automatically and control the normal duty on which PF & ESI to be deducted not to exceed more that the month days. Since it is defined in masters, chances of error is NIL. One Employee can easily generate salary for 2000 Guards on a single computer.
- **PROFIT PER UNIT** – Verify Salary Distributed to Billing Done to Ensure you are never underbilling to the customer. **This is also a major loss area.**
- **PF-ESI,PT,LWF** – Monthly Statement, Challans, Form 5, Form 10, Form 12A. **Save fees paid to consultants.**
- **Extensive Query for Salaries** – Single click view of all salary made in different units for a guard. Hence saving lot of time for guard queries.
- **Salary History** – View old salary attendance of guard any time by just click of an option. **Manually you have to save xls file for every month.**
- **Bank Salary Transfer Statement** : Since the Bank details are stored in guard data base, it is very easy to transfer salary to back by unit wise or bank wise. **Manual Xls there is always changes of error in amount and ac no as every time is needs to be feed manually.**
- **Outstanding Manager** – Outstanding Reports, Ledger, Bill wise Due Report
- **TDS Certificate Tracking Reports**
- **Deduction Manager** – Track all Deductions made on bills.

These are just few Advantages of Using VNV GUARD SOLUTION for your company

VNNGUARD-ERP

Ver - 2012

ADVANCED ENTERPRISE SOLUTION

Product Description + Features (What you get)

1) ERP ENGINE, USER MANAGEMNET & GATEWAY
